

# Usertest Portfolio

*Note:*

*Only Learning Outcome 1 (LO1) and Project 1 through 3 are active. Focus your test on these components only.*

## **1. First Impression**

Is it immediately clear that this is a portfolio?

- User 1: It is clear, but it could be better.
- User 2: Yes, because the first page clearly says, “welcome to my portfolio for semester 2”.
- User 3: Yes, it is immediately clear. The title and navigation make it immediately clear that it is a portfolio.

Do you see where the projects are located?

- User 1: Yes.
- User 2: Yes, through the navbar, it scrolls automatically to the right section.
- User 3: Yes, clearly visible and logically placed.

Does the homepage come across as professional?

- User 1: No, the cat is cute but doesn't look professional, especially with the knife.
- User 2: The cat makes it look less professional. The rest of the page is direct and clean though.
- User 3: Overall, yes. The creative style suits you, but the cat is playful for a professional portfolio.

## **2. Project Check 1 to 3.**

### **Are the projects well explained?**

- User 1: Yes, well done.
- User 2: I saw the 'progress' button later. There is no explanation as to why you made certain choices.
- User 3: Yes, the projects are clearly structured. A short explanation at the top would make it even stronger.

Do you understand what the projects are and what my role was?

- User 1: Yes.
- User 2: No, at the moment it is not clear what your role was in the project.
- User 3: It is still in development, but for now it is not fully clear.

Are they visually and content interesting?

- User 1: Yes, I like it a lot.
- User 2: Visually it looks good, but I didn't see the process button until later in projects.
- User 3: Yes, good interactive visuals and nice layout.

## **3. Learning Outcome 1**

Do you understand which projects belong to LO1?

- User 1: Yes.
- User 2: Yes, it is well indicated.
- User 3: Yes, the tags are clear to see which projects belong to it.

Is it clear how I am fulfilling my learning outcome?

- User 1: It is pretty clear what steps you have taken.
- User 2: Your intentions are visible, but it could be more direct. The burden of proof is on you.
- User 3: Yes, clearly and logically structured. A short summary at the top of LO1 might help for more overview.

#### **4. Areas for Improvement**

Was anything unclear in the navigation?

- User 1: No, maybe if I look longer, I see something.
- User 2: The embed for LO1 does not work, and the 404 page has a broken 'x' button.
- User 3: The navigation makes sense.

Did you have trouble finding or understanding something?

- User 1: No.
- User 2: No, everything was easy to find.
- User 3: No, it is clear and easy to follow.

Any other suggestions?

- User 1: The fonts sometimes differ per section (such as About me vs. My interests). Also, words are hyphenated with a "-", which is not comfortable to read.
- User 2: I would like to see the learning outcomes directly on the site, not as a separate PDF.
- User 3: A hover effect or micro-interaction would make it more visually appealing.
